INTRODUCTION

It is getting towards Christmas and the end of the year which has again been very successful with the membership steadily rising.

The Breed Walk was held in May 2016 at Windsor Great Park with approximately Fifty-Five (55) ITs attending and bringing their owners along, the weather was kind not too hot or raining and after the walk meeting up at the Post office for a cup of tea and an ice cream.

The Open Show was held in conjunction with Southampton & District Canine Association Show in Netley Park in July 2016, the Judge was Mr Andrew Goodsell. The Open Show was well supported with 24 dogs entered giving a total entry of 32, With several ITs and owners visiting as supporters.

Then in October 2016 we held the Championship Show at Steventon the Judge was Ivor Hemmings (Courtington) the entry was very high again with 41 dogs entered giving a total entry of 57.

Only two Newsletters will be produced this year as I was very busy with puppies (2 litters 10 & 7) over the summer period.

To help us make the Newsletter more interesting if you have any articles (We are always pleased to hear of the antics that your IT get up to), poems or information about ITs and dogs in general please can you send them in.

We are still building a data base of member's email addresses so the Newsletters can be sent electronically as the postage is expensive. So, if you have an email address and you do not receive your copy by this method please could you let me know on holbam1@gmail.com.

Please can we have feedback on the contents or ideas for articles for future newsletters?

The Kennel Club - General Code of Ethics

**All members of the Southern Irish Terrier Society (SITS)
undertake to abide by its general Code of Ethics.**

All breeders who register their puppies, and new owners who register ownership of their dogs with the Kennel Club, accept the jurisdiction of the Kennel Club and undertake to abide by its general Code of Ethics.

Breeders/Owners:

- Will properly house, feed, water and exercise all dogs under their care and arrange for appropriate veterinary attention when required.
- Will agree that no healthy puppy will be culled. Puppies which may not conform to the Breed Standard should be placed in suitable homes.
- Will abide by all aspects of the Animal Welfare Act.
- Will not create demand for, nor supply, puppies that have been docked illegally.
- Will agree not to breed from a dog or bitch which could be in any way harmful to the dog or to the breed.
- Will not allow any of their dogs to roam at large or to cause a nuisance to neighbours or those carrying out official duties.
- Will ensure that their dogs wear properly tagged collars and will be kept leashed or under effective control when away from home.
- Will clean up after their dogs in public places or anywhere their dogs are being exhibited.
- Will only sell dogs where there is a reasonable expectation of a happy and healthy life and will help with the re-homing of a dog if the initial circumstances change.
- Will supply written details of all dietary requirements and give guidance concerning responsible ownership when placing dogs in a new home.
- Will ensure that all relevant Kennel Club documents are provided to the new owner when selling or transferring a dog, and will agree, in writing, to forward any relevant documents at the earliest opportunity, if not immediately available.

- Will not sell any dog to commercial dog wholesalers, retail pet dealers or directly or indirectly allow dogs to be given as a prize or donation in a competition of any kind. Will not sell by sale or auction Kennel Club registration certificates as stand-alone items (not accompanying a dog).
- Will not knowingly misrepresent the characteristics of the breed nor falsely advertise dogs nor mislead any person regarding the health or quality of a dog.

Breach of these provisions may result in expulsion from club membership, and/or disciplinary action by the Kennel Club and/or reporting to the relevant authorities for legal action, as appropriate.

Assured Breeder Scheme (ABS)

At the SITS 2011 AGM a change to our Society's Code of Ethics was approved. This change was originally recommended by the Kennel Club and was supported by the Committee. The new code requires that any members who breed litters must commit to follow the ABS guidelines and standards. Membership of the scheme is not a formal requirement but is recommended.

Why join the Scheme?

The Assured Breeder Scheme ensures that puppy buyers know which breeders follow good practice. We wish to guarantee a responsible and rewarding experience for everyone, and most of all we want to promote the breeding of healthy, happy dogs.

Every single Assured Breeder will be inspected by the Kennel Club, a UKAS accredited certification body, to ensure that the scheme is recognised as the essential quality seal for puppy breeding and buying.

About the UKAS Accreditation

We are the only organisation accredited by the United Kingdom Accreditation (UKAS) to certify dog breeders, under the Kennel Club Assured Breeder Scheme. This means that we are recognised as an

impartial and competent inspector by the government's sole national accreditation body. High standards for caring for the health and welfare of their puppies and breeding bitches.

This gives puppy buyers additional confidence that Kennel Club Assured Breeders are committed to meeting and maintaining high standards for caring for the health and welfare of their puppies and breeding bitches, and are the best point of contact for buying a healthy, happy puppy.

The Puppy Pack

This has been created so that members must provide detailed advice to new owners on a variety of important topics. Written with the help of the Pet Care Trust, Pet Food Manufacturers Association, Bayer and the British Dog Groomers Association, it's available for Assured Breeders to adapt as you wish to your puppies.

Cost of the Scheme

Under the UKAS accreditation, you now sign up for a 3-year contract during which your annual membership fee will cover the cost of the Breeder Assessment Visit. At the end of the 3-year period, you should book a new assessment visit and renew your contract if you wish to remain a Kennel Club Assured Breeder. By joining this year, the annual cost of the Scheme is:

***NOTE:** Membership for the first-year costs £45 + £20 joining fee (total £65) and then £60 annually.

Why join the Assured Breeder Scheme?

To reward Assured Breeders, the Kennel Club will add their litters free of charge to the Find a Puppy Service. Additionally, prospective puppy buyers on the website will see the premium KCAB badge next to litters to assist them in making a responsible buying decision.

Benefits include:

1. Free listings to sell your puppies on our Find a Puppy service (value of £20 per litter);
2. Free listing on the Kennel Club Assured Breeder service
3. The Assured Breeder logo to use on your website adverts and print material. The sign of a responsible, trustworthy breeder!
4. Prioritised access to support, advice and information from the Kennel Club's Health and Breeder Services department;

5. Reduced registration fee for each puppy registered;
6. Puppy sales wallets, which hold all the essential information that members are required to pass on to puppy buyers;
7. Reassured puppy buyers who are directed to you as responsible breeders, who are dedicated to ensuring that their puppies lead long, healthy and happy lives;
8. Access to literature for managing litters & reproducing official Breed Standards on your own website:

Further information and a list of Assured Breeders can be found at www.thekennelclub.org.uk/assuredbreederscheme.

Breeders have specific accolades shown against them which will signify breeding experience, Breed Club membership, Stud Book achievements and a newly created Accolade of Excellence.

Scheme requirements and recommendations

Assured Breeders must:

1. Ensure that all breeding stock is Kennel Club registered.
2. Hand over the dog's registration certificate at the time of sale if available, or forward it to the new owner as soon as possible.
3. Explain any endorsements that might pertain and obtain written and signed confirmation from the new owner, at or before the date on which the dog is physically transferred, that the new owner is aware of the endorsements(s), regardless of whether or not the endorsed registration certificate is available.
4. Follow Kennel Club policy regarding maximum age and number/frequency of litters.
5. Permanently identify breeding stock by DNA profile, microchip, or tattoo.
6. Make use of health screening schemes, relevant to their breed, on all breeding stock. These schemes include DNA testing, hip dysplasia, elbow dysplasia and inherited eye conditions.
7. Socialise the puppies and provide written advice, in the Puppy Sales Wallet, on continuation of socialisation, exercise and future training.
8. Provide written advice, in the scheme Puppy Sales Wallet, on feeding and worming programmes.
9. Provide a written record, in the Puppy Sales Wallet, on the immunisation measures taken.

10. Provide reasonable post-sales telephone advice.
11. Inform buyers of the requirements and the recommendations that apply to Kennel Club Assured Breeders as well as the existence of the complaints procedure.
12. Draw up a contract of sale for each puppy and provide a copy in the Puppy Sales Wallet.
13. Provide a list of breed specific traits and tendencies or any further breed specific advice or information that may enhance the puppy buyers understanding of the breed they are buying.

Scheme recommendations

Assured Breeders are strongly encouraged to:

- Make sure that whelping facilities accord with good practice.
- The contract of sale should clearly lay out to the buyer the nature and details of any guarantee given (e.g. time limit) and/or any provisions for refund or return and replacement of puppy. If endorsements are being used the contract should also explain why these have been placed and under what circumstances they would be removed (if any). The contract should be signed and dated by both breeder and purchaser, showing that both have agreed to these terms.
- Commit to help, if necessary, with the re-homing of a dog, for whatever reason, throughout the dog's lifetime.
- Follow relevant breed health screening recommendations

There are not currently any veterinary screening schemes or DNA tests for disease relevant to this breed under the Assured Breeder Scheme, however you should still ask breeders and refer to breed clubs about health issues in the breed.

OPEN DOG (3,0)

1st, **MONTELLE CARVELIOUS GOLD** (Angela Cooke) (see Junior Dog/Bitch) **BD/BIS**.

2nd **CH MONTELLE VISION IN RED JW** (Adrian & Helen Bannister) - Very smart well-made dog, 6 years old, good head and expression, though perhaps less hair on the side of his head would show his head to better advantage. Looks smart when something catches his attention and pulls himself together, moved freely, coat had good texture but a little patchy today, not quite matching style and presence of winner on day, however liked him a lot and thought him a quality well-made typical moderate dog and not surprised to see he is a champion **RBD**

3rd **MONTELLE I'M HERE TOO** (Miss A Bradley)

OPEN BITCH (8,3)

1st **CH HOLBAM PEARLY STAR SH.CM (TAF)** (Miss M Bradshaw) - Lovely bitch, has quality and substance, good head and well set ears, good eyes, good neck and shoulders, correct topline, well balanced in body proportions, moved soundly, in good condition, harsh coat, showed steadily despite the hot weather, overall a quality balanced picture and she behaved well which helped her secure this class over 2. **BB/RBIS**

2nd **MONTELLE SIRONA FLAME** (Mr D Hargraves & Mrs F Dancer) - Another lovely bitch slightly lighter frame than 1, excellent head and expression, overall quality and balance excellent, excellent coat texture. Still young at 17 months and very much enjoying herself, I was pleased to see her self-assured happy temperament, however not doing everything her handler wanted standing or on the move. Did not move quite as well as the winner today or make the most of herself standing, nevertheless close to 1 and another day could go higher.

PICK A PENNY UP, FOR GOOD LUCK

Well we definitely did On-going to see our puppy at 4 weeks old, stopped off at Cheverly Services, got out and there was a penny – picked it up and thought “what shall we call our puppy in another 4 week when we get her (Weetabix? Tilly? not sure).

The second time we went to see our puppy with the nail varnish on its leg to identify which one we had chosen, at now 6 weeks old. We stopped of a ‘Cheverly’ again and got out the car – there was another penny, so picked it up. (We considered Penny for the coppery/brassy colour of the Irish coat).

On our third visit at now 8 weeks old, we decided she would be called Penny, and she’s certainly brought us good luck!

She’s a tonic to all of us as a family. Jack now 19 yrs – plays rough & chases her around the garden.

Jessica now 17 yrs – gives her a good chilled “massage” and therapy sessions in her room.

Chloe just turned 14 yrs (12th June), teaches her obedience and comes to dog training sessions with her.

Samantha still 11 yrs – just plays and they follow each other like little shadows, really good mates.

I get all the lovely long walks and grooming etc. husband Marc likes a relaxing cuddle with Penny on the couch at the end of the day.

We all love her very much in our own ways and are so glad we “picked up a penny – our penny pup”.

DISCOVER DOGS 2016

SITS again organised and manned the booth at Discover Dogs, this year it was held at the Excel Centre, the date was change so it did not clash with any Championship Shows. The new venue is bigger and there is more room around the booths.

There was a lot of interest in the ITs and their owners were kept very busy telling visitors about the breed and answering questions. a big thank you for the IT's and their owners who manned the booth.

We are always looking for volunteers to help man the booths at both Discover Dogs at the Excel Centre & Crufts, if you feel you can help please contact Ian Bamsey on tel: 07885 302020 or Email: holbam1@gmail.com.

ANNA – FEBRUARY 2000 TO OCTOBER 2016

I am so sad to tell you of Anna's passing. Anna was born on 4th February 2000 as Gabledown Anastasia. She was bred by Mrs June Symonds in Nottinghamshire. She had a litter of pups however a difficult whelping caused complications and Anna needed to be spayed as an emergency. Around this time, we had fallen in love with Irish Terriers and during a visit to Discover Dogs in Earls Court in November 2003 chatted to

a couple of Irish Terrier owners and told them that we were looking to rehome a retired breeding bitch. A connection was made! We went to meet Anna, Mrs Symonds and Karina Lucas. We fell in love with Anna and she came to live with us in Oxfordshire on 30th November. Mrs Symonds made no charge for Anna, her only requirement being that she should have a loving home.

And there was so much love for Anna which was returned by her. She herded us when out walking and followed us around the house earning the nickname 'The Ginger Shadow'. She learned to do the 'Happy Feet' dance and to jump up on the bed in the early hours of the morning. She quietly nudged our hands when she required her ears to be fondled. Not always quiet, she barked loudly at Sam when he came home from work, in the hope that she would be the first to receive his attention (and she got it). In 2004 she was joined by Paddy and then in 2006 her daughter Mickie, who had also had a litter of puppies, both also coming from Mrs Symonds. They became 'The Three Musketerriers' – a

happy mob charging around the golf course pretending to chase rabbits even knowing when to stop when a golfer was about to take a shot.

Anna was a great ambassador for the breed. So, impressed were friends of ours that they rehomed an Irish from the Bamseys' and my parents rehomed his sister Tinker.

What a happy home we have had with our 'babies'. Our vet described us as being 'a great pack' which is a wonderful compliment. Anna always loved to show off a little, winning at a local dog show (for general cuteness) as well as the Golden Oldie competition at the Irish Terrier Fun Day in 2014 and 2016. Despite some health problems she had a very strong will and was always 'Alpha' in the pack.

Anna became very poorly last week and stopped eating. After some last attempts at veterinary intervention we decided that it was time to say goodbye. It was peaceful for her. She was 16 years and 8 months.

Our hearts are broken. The price of love is indeed grief. However, there are so many joyous memories. For us, she is a legend and will always be adored and remembered with love and gratitude.

DOG LANGUAGE

I love to communicate with my Irish Terrier and recently attended a course about how to read his dog language to help him get the best out life. Specifically, I've been focusing on his stress indicators. We all know what jokers Irish Terriers can be but the wide range of facial expression, distinct body movement, and different vocalisation of our dog Castor is stunning. Sometimes it is obvious what he is saying ("I want to eat your lamb chops, they look delicious ") but what about the subtler messages?

The subtle messages are useful in seeing how he feels about something before he starts to get agitated or silly especially as he can escalate from an apparently relaxed dude to an agitated hooligan in a flash.

Learning more about observing and interpreting these messages has helped make our life a lot more relaxed and fun. It has given me confidence to avoid difficult situations such as dog to dog confrontation (and being an intact boy we should be extra careful to avoid living up to breed standard). I can use his subtle messages to decide if he is feeling safe or whether he needs a bit of help. Best of all, he can tell me when life is good. He is calmer and better behaved (which I distinguish from better trained) and walks have become a pleasure not a chore.

A good example of a subtle message is a combination of him sniffing a random leaf, curving his body slightly, keeping his head down and taking a sneaky glance up. His ears may have moved back. Sounds like nothing much and happens very quickly, but if I look around I will usually spot someone coming directly towards us or something that bothers him. I then have the option to create a bit of distance and carry on with a relaxed walk.

Other signals which look small but can be low level stress indicators are quick lip licks, head turns, body curve, changes in the shape of the eyes, tail positions, coat texture, panting, ear positions and lots of others. I find it great fun watching dogs using their bodies to communicate and trying to work out what they are saying. Like people they can be polite or rude, aggressive or conciliatory, confident or wary, and some dogs have amazing abilities to teach, protect and diffuse problems with other dogs.

PET TRIMMING HAND STRIPPED IRISH TERRIER

As a groomer, I see many different stages of coat growth and conditions. Keeping on top of a stripped coat can be time consuming and hard work. But in saying that it is very rewarding and a great bonding experience between you and your dog.

Stripping a pet Irish is very different to stripping a show coat. Here I can show you in a few short steps how to strip your Irish at home.

You need to stretch the dog's skin tight, and with your stripping knife start working from the neck down to the shoulder, along the main body towards the tail.

You need to hold the knife as flat to the body as possible and make sure that you do not bend the hair over the knife with your thumb. If you do bend the hair over the knife you will end up cutting the coat, resulting in a cut coat not a stripped coat. You need to feed the hair between the knife and your thumb. You should be doing all the hard work with your knife not your

wrist using your thumb as a guide/anchor.

Keep your hand fairly relaxed and let your hand almost "slide" downwards with the growth of the coat. Remember not to "pull" the hair up or outwards away from the body as doing this will be uncomfortable and painful for the dog.

As you strip use your terrier brush or palm brush to lightly brush the hair against the growth. This will lift any hair that is still to be stripped out.

Once the main body is stripped out you can move onto the neck and chest. This can be sensitive for the dog, so make sure that you lift

the head upwards to tighten the skin for ease. You can rub the area that you're stripping with a block of chalk to help grip the hair so you can strip with more ease.

Strip the neck down to the breast bone and stopping at the top of the leg. Try and get the neck and chest as tight as you can.

Carefully lift the front leg and strip what you can from the "armpit" and the inner chest being careful not to catch any nipples with your stripping knife. (Being a pet trim if the dog doesn't let you strip the armpits you can carefully trim here with either thinning scissors or small clippers)

When you're trimming the front legs, you're looking for them to be parallel straight. The legs should be tight at the elbow and blended neatly into the leg.

Strip the rear of your dog nice and tight so to blend in with the rest of the body. Around the anal and groin area the dog may or may not let you strip here. It is a super sensitive area so if you're not showing your dog and they dislike it don't stress them, I would recommend if you lightly clip and blend with your thinning scissors. The

same with underside part of the tail.

Clip the nails and with some small clippers (trimmers) remove the hair from in between the pads and with your scissors just lightly trim round the base of the foot to tidy up.

Ears need to be stripped tight. You can do this easily with a little chalk on your finger and thumb to help you grip the hair. Again, as a pet and not a show dog if the dog dislikes you stripping the inner ear flap, your small clippers (trimmers) can be use.

Stripping the head, use a fine stripping knife and start at the top of the head (behind the eye sockets) and work back down towards the neck. You don't want the eyebrows to be too heavy, they are small and slight. To achieve this, remove the hair

from between the eyes/eyebrows to separate them and trim them into shape. Then using your fine stripping knife strip the cheeks and the corner of the mouth to under the jaw to help shape the beard.

Finish with brushing over the whole dog with a pumice stone to help remove any hairs missed and excess soft loose undercoat.

SITS BREED WALK 2016

On Sunday 29/05/16 the Annual Breed Walk was held in Windsor Great Park; the weather was kind with a sunny cool day just right for the dogs. The event was again very well supported with members and their dogs from far and wide. There was approximately 55 Irish Terriers attending, it was impossible to get an exact number as they kept moving around. We all met at the Rangers Gate, (where the picture was taken) and walked to the Copper Horse Statue. Some then did the long walk, whilst others did the short walk back to the Post Office Store, where we all met up for refreshments. It was great to see so many Irish Terriers all together and getting on well. The walk will be run again next year. Please can we have feedback from the members attending, is there anything we can do to make this an even better event?

DNA TESTING SCHEMES

DNA Testing schemes currently cover conditions that are either recessively or dominantly inherited.

For recessively inherited conditions, the DNA test determines whether a dog is clear (no copies of the mutant gene), a carrier (one copy of the mutant gene and one normal gene) or affected (two copies of the mutant gene).

For dominantly inherited conditions, the DNA test determines whether a dog is clear, having no copies of the defective gene or single affected, having one copy of the defective gene.

DNA test results for HFH (Hereditary Footpad Hyperkeratosis) – recessively inherited
